**NOTICE OF APPROVAL**

**CONDITIONAL ORDER FACILITY**

TSX Venture Exchange Inc. (“**TSXV**”) will adopt, and the Alberta Securities Commission (“**ASC**”) and British Columbia Securities Commission have approved, amendments to the TSX Venture Exchange Rule Book and Form 21-101F1 to reflect the introduction of a conditional order facility on TSXV (the “**Amendments**”). <i>Summary of Comment Received</i>	<i>TSXV Response</i>
<p>The commenter was generally supportive of the proposal. The commenter noted that conditional orders come with their own set of risks that mostly arise from the embedded optionality within the conditional firm up process, and encouraged TSXV to establish a robust process to monitor the conditional firm up rates.</p>	<p>TSXV thanks the commenter for its input. As noted, and more fully described, in TSXV's Notice of Proposed Amendments and Request For Comments, TSXV will have the ability to suspend a participant's ability to enter Conditional Orders if TSXV determines, in its sole discretion, that Conditional Orders are being misused. Commencing on the date of implementation of Conditional Orders, TSXV will undertake a 90-day assessment period whereby it will use such time to analyze usage and patterns of Conditional Orders to better calibrate and balance its enforcement of Conditional Orders.</p>
